**Winnipeg, Sept. 10.**—There was considerable pressure in evidence on the wheat market today and prices eased off in the face of selling from line elevator companies in the form of holding wheat, at the same time there was selling by shorts. The local trade apparently looking for lower values and were aggressive sellers on any sign of weakening in the United States markets. There was some fair buying coming out at times but the volume was not of sufficient quantity to hold prices. Closing figures showed a loss of 1 1/2 cents for the October and November deliveries and 1 1/2 cents for December and May.

Unchanged reported only a moderate export business over the week-end for nearby shipment. There was little interest displayed in deferred position wheat.

The future market for grain was without particular feature, rate and barley being easier, while rye held steady and about unchanged. There was a little easier on light trading for all grades of spot wheat, but offerings continue very light with prices generally unchanged to two cents better.

A good demand existed for all grades of cash barley and rye with spreads unchanged to 1/2 narrower. Oats and flax were flat.

Importation totaled 124 cars of wheat, 176 of which were contract grain.
